Preparing for the Installation

1. Download Kali Linux *(We recommend the image marked **Installer**)*.

2. Burn The Kali Linux ISO to DVD or image Kali Linux Live to USB drive. *(If you cannot, check out the Kali Linux Network Install)*.

3. Backup any important information on the device to an external media.

4. Ensure that your computer is set to boot from CD/DVD/USB in your BIOS/UEFI.

5. In the UEFI settings, ensure that Secure Boot is disabled. The Kali Linux kernel is not signed and will not be recognized by Secure Boot.

Kali Linux Installation Procedure

Boot

1. To start your installation, boot with your chosen installation medium. You should be greeted with the Kali Linux Boot screen. Choose either **Graphical install** or **Install** (Text-Mode). In this example, we chose the Graphical install.
